# Loves Me ...
# Loves Me Not...

A Short Animation Movie on Emotion Of Flowers

Kavita Dicholkar

Guide: Prof. Raja Mohanty

Industrial Design Center,

# Introduction

God has created wonderful things in this world and flowers are one among them.

Human emotions and flowers are interrelated to each other

Flowers have always played a very important role in our life.

# Initial Exploration

I hate to see people plucking flowers and plants.

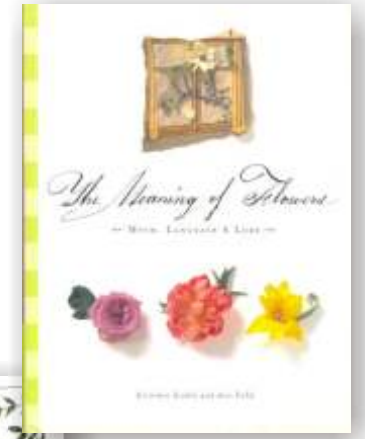
I feel so bad to see them being cut with scissors and those beauties being wrapped in plastic, suffocated in a bouquet.

We should enjoy and preserve its beauty instead of destroying it.

Plucking a flower means giving pain to the flower plant. ,We must also consider that the plants are also living beings. Then To show love for someone, why should we become the cause of pain for someone else?

# Initial Exploration

## Reading Books



The meaning of flower

The flower speaks

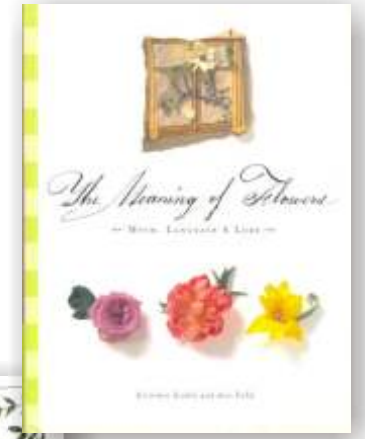
the language of flower

# Initial Exploration

## Watching movies

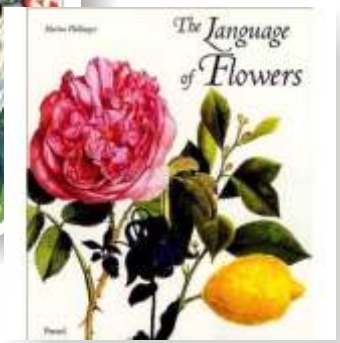
The Child of the Flowers - an animated shortfilm

## Reading Books



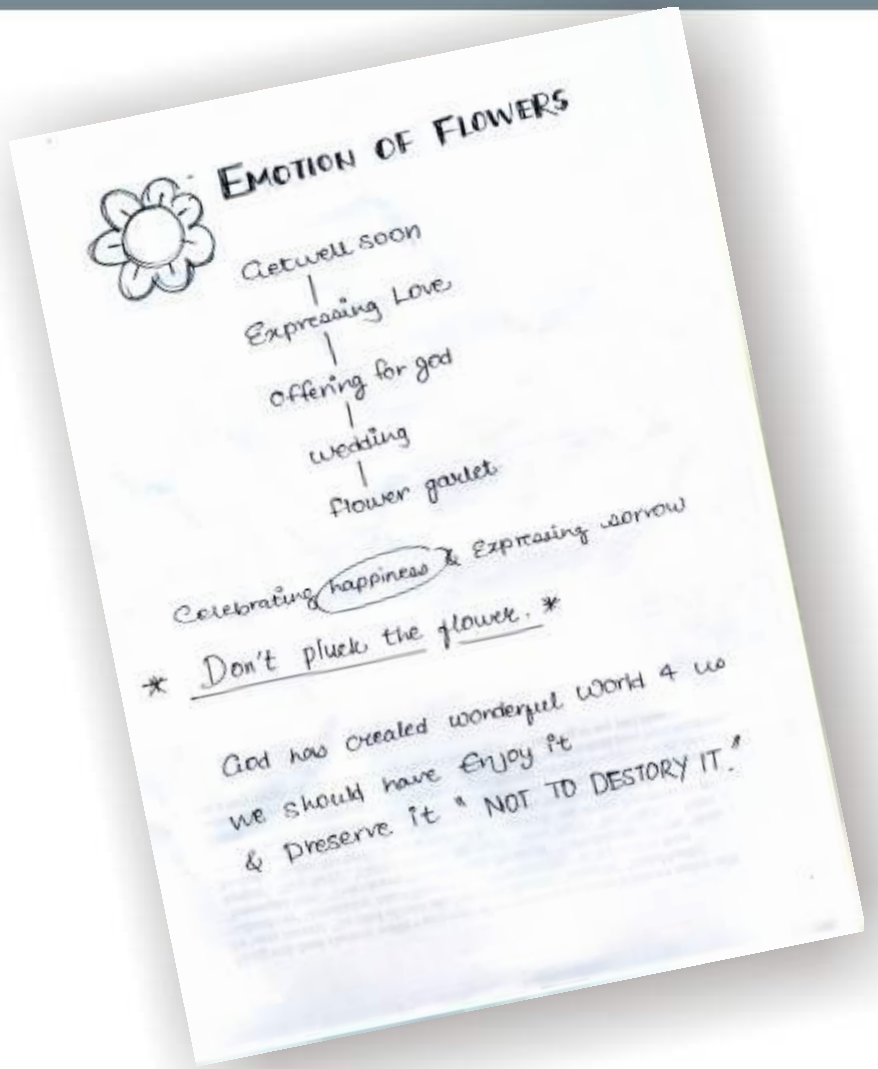
The meaning of flower

The flower speaks



the language of flower

# Initial Idea



EMOTION OF FLOWERS

Getwell soon
|
Expressing Love
|
offering for god
|
wedding
|
flower garlet

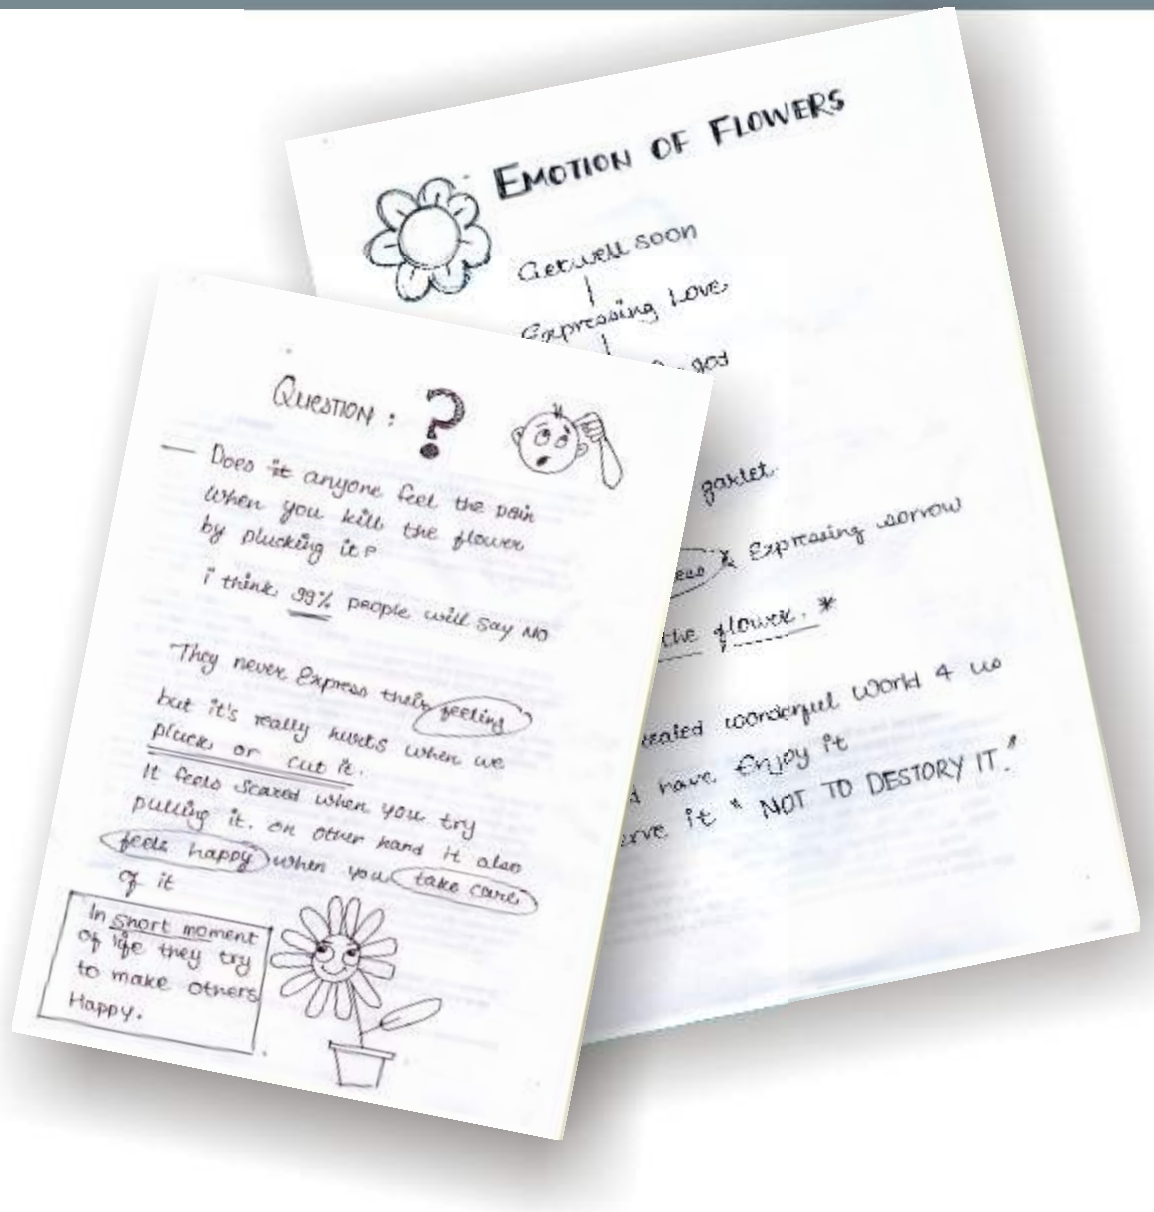
Celebrating happiness & Expressing sorrow

* Don't pluck the flower. *

God has created worderful world 4 us
we should have enjoy it
& Preserve it " NOT TO DESTORY IT."

# Initial Idea

Does anyone feel the pain when you kill the flower by plucking it?



# The Final Idea

In this story the basic and final idea that I wanted to convey is that like us flowers also have emotions .But since they can't express like us, so its our responsibility to take care of them.

# Concept Art

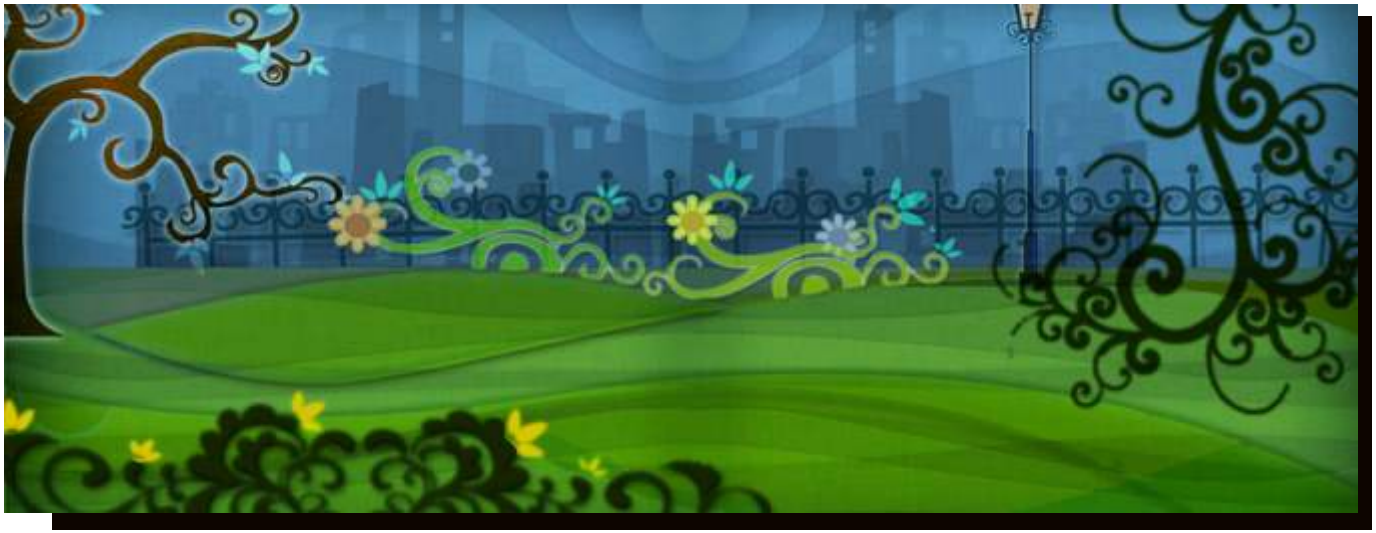
# Final Layout



# Technique & Tools

Technique of Animation is Cutout Animation

I used the light box to draw different actions of character

Adobe Photoshop & After Effects

# Final Approach

Flowers life is short and sometimes we make it shorter.

People should think twice before they pluck the delicate beauty.

New kind of experience learning about the flower as well as the animation technique used behind it.

# Thank you
