

The recipe of “Oh my God!”

Project by: Swati Agarwal

Guide: Prof. Phani Tetali

Story Evolution

Dream Project

Analysing the Dream

Sigmund Freud – Interpretation of dreams

Nothing we do occurs by chance

Every action and thought is motivated by your unconscious at some level.

In order to live in a civilized society - a tendency to hold back our urges and repress our impulses.

Urges and impulses must be released in some way

They have a way of coming to the surface in disguised forms.

One way they get released – dreams.

Looking for Answers

Who might be that person?

Why was he doing that ?

The almighty, fed up of the
divisive nature of human beings
is leaving the earth...

Story Development
