

SOUND SENSE OF SPACES

PROJECT SUGGESTED & GUIDED BY
PROF. RAVI POOVAIAH
PROJECT DONE BY- KEERTI CHOWDHRY

A Study of 'Soundscapes' of places in the city that have unique and variegated acoustic ecology. The project involved collection of sound samples, categorisation & analysis, and explorations in visual representations.

This simple project culminated in a beautiful collection of soundscapes and an understanding of the fabric, tone & character of a place
